1959

ANNUAL REPORT

OF THE

MEDICAL OFFICER OF HEALTH

District Council Offices
Alexandra Road,
Wisbeck.

J.A. SLATTERY,
M.R.C.S., L.R.C.P., D.P.H.

MARSHLAND RURAL DISTRICT COUNCIL

MEMBERS OF THE PUBLIC HEALTH COMMITTEE

The Chairman (Councillor W. Allen), The Vice Chairman (Councillor C. Sutton) and the full Council.

Public Health Officers of the Local Authority:-

Medical Officer of Health -

J.A. Slattery, M.R.C.S., L.R.C.P., D.P.H.,
Local Health Office,
Area No. 7,
The Howdale,
DOWNHAM MARKET.

Telephone:- Downham Market 3241.

also holds appointments of:-

Assistant County Medical Officer of Health.
School Medical Officer.
Medical Officer of Health Downham Market Urban District Council.
Medical Officer of Health Downham Rural District Council.

Senior Public Health Inspector and Surveyor -

B.V. Braybrook, C.R.S.H.

Additional Public Health Inspector and Deputy Surveyor.

A. Nunn, C.R.S.H.

Local Health Office,
Downham Market.

September, 1960.

TO THE CHAIRMAN AND MEMBERS OF THE MARSHLAND
RURAL DISTRICT COUNCIL.

Mr. Chairman and Gentlemen,

I have the honour to present my report for the year ending December 31st, 1959.

The estimated mid-year population was 16,760.

Births

There were 267 live births giving a birth rate of 16.2.

Stillbirths

There were 5 during the year.

Infant Mortality

Two infants died. In both cases death was due largely to abnormalities present at birth.

Deaths

There were 139 deaths giving a death rate of 9.4.

Apart from the two infant deaths there were four deaths below the age of 25 years. Three were due to infections but none of these could have been prevented by immunising procedures. The fourth was caused by drowning.

Infectious Disease

Scarlet Fever

There were more notified cases of scarlet fever in 1959 than in any single year for over ten years. Most of the cases occurred in January and February in the Terrington area. A small outbreak started again in October and was centred on Tilney All Saints. Most of the scarlet fever seen in recent years has been of a mild type but in some areas of the country cases of scarlet fever have been followed by more serious complications. Certain types of organisms have been associated with these complications so that some vigilance is still necessary. The

types of organism which cause scarlet fever are changing year by year and we may find the disease resumes some of its old ferocity in future years.

Measles

There was a small outbreak of measles in the Walsoken area beginning with a few scattered cases in January, gaining force in April and May, spreading to the Tilney area in June and to Upwell and Three Holes in July. The epidemic ended in August with the start of the school holidays.

Poliomyelitis

A case of poliomyelitis was notified in July. Precautions were taken to prevent cross infection but the case turned out to have been caused by one of a group of related viruses which have similar features. It is likely that other cases occurred in the area but were not recognised. This virus group is called ECHO and may be responsible for a number of cases of feverish chills and diarrhoea and for mild attacks of meningitis.

In December poliomyelitis was again notified. This diagnosis was confirmed but here again no source of infection was discovered and no other cases occurred. It is thought that for every case of recognised paralytic poliomyelitis there are many mild infections with the same virus which pass unnoticed.

Food Poisoning

Eight notifications were received during the year, all at the end of July. Unfortunately it was not possible to find the source of this outbreak as several days passed before the cases were notified. Householders should always keep food suspected of having caused illness and should inform the Public Health Inspector by telephone. If no food is left over, empty tins or cartons may be useful.

The health of Marshland's community was good during the year and no schools were closed.

I should like to thank the Chairman and members of the Public Health Committee for the interest they have taken in the work being done by my department. I am grateful too for the assistance and support I have had from the Clerk, Public Health Inspector and members of the Local Health Office staff.

I am, Sir,
Your obedient Servant,

J.A. Slattery.

SUMMARY OF VITAL STATISTICS

Area in acres.....	56,652
Population in 1931.....	15,350
Population in 1951 (Census).....	16,567
Population in 1959 estimated mid year home population.....	16,760

GENERAL MEDICAL SERVICES

Norfolk Executive Council, 54, Prince of Wales Road,
Norwich. Clerk, R.J. Cobb, Esq.

(a) GENERAL

- (i) Norfolk Norwich Hospital, Norwich.
- (ii) West Norfolk and King's Lynn Hospital, King's Lynn.
- (iii) Jenny Lind Hospital, Norwich.
- (iv) St. James' Hospital, King's Lynn. (For chronic sick)
- (v) North Cambs Hospital, Wisbech.
- (vi) The Howdale Home, Downham Market.

(b) MATERNITY

- (i) Bowthorpe Maternity Hospital, Wisbech.
- (ii) West Norfolk and King's Lynn Hospital (Maternity Unit).
- (iii) Adenbrookes Hospital, Cambridge.

(c) INFECTIOUS

- (i) Isolation Hospital, King's Lynn.
- (ii) Peterborough Isolation Hospital.
- (iii) Cambridge Isolation Hospital.

(d) SANATORIA

- (i) Kelling Sanatorium, Holt.

(e) MENTAL

- (i) St. Andrews Hospital, Norwich.
- (ii) Hellesdon Hospital, Norwich.
- (iii) Little Plumstead, Norwich.

2.

MATERNITY SERVICES

- (a) District Nurses showing areas served (at times of compilation of this report).

Nurse Stevens - Terrington St. Clement and Terrington Marsh

Nurse Cable - Walpole St. Andrew, Peter, Highway and Cross Keys area.

Nurse Trundley - Terrington St. John, Fen End, Trinity Road, Tilney St. Lawrence, Hay Green and Marshland St. James.

Nurse Reeve - Tilney All Saints and Clenchwarton.

Nurse Criss - West Walton, Walsoken and Emneth.

Nurses O'Leary and Nolan - Upwell, Outwell, Welney and Three Holes.

- (b) MATERNITY

Beds in Regional Hospital Board Establishments.

(i) Bowthorpe Maternity, Wisbech.

3. AMBULANCE AND HOSPITAL CAR SERVICE

The hospital car service for the Marshland area is conducted by King's Lynn Ambulance Station and the Local Health Office, The Howdale, Downham Market.

The Marshland area is jointly served by the Downham Market and King's Lynn Ambulances.

Infectious Disease cases are conveyed by East Dereham, Wisbech and King's Lynn Ambulances.

4. RED CROSS AND ST. JOHN MEDICAL LOAN DEPOTS.

- (a) Terrington St. John - Mrs. D. Greer.
- (b) Walpole St. Peter - Mrs. G. Woods.
- (c) Terrington St. Clement - Mrs. S.M. Wilcox, The Lodge
Terrington St. Clement.
- (d) Outwell - Mrs. Roper, Eason House, Outwell.
- (e) Three Holes - Mrs. D. Jerney, "Roysan", Three Holes.

COUNTY MEDICAL SERVICES

(a) INFANT WELFARE CENTRES

(1) Terrington St. Clement - 3rd Tuesday, 2-4 p.m.

The Assistant County Medical Officer of Health attends at the above centre.

In addition Village Infant Welfare Centres are held at the following villages - Emneth, Marshland St. James, Tilney St. Lawrence, Walpole St. Peter, West Walton, Outwell and Three Holes. These centres are conducted by the Local Nurse/Midwives and Health Visitors, and are visited periodically by the Assistant County Medical Officer.

(b) HOME HELP SERVICE

The County Home Help scheme is doing excellent work and Home Helps are at present available for the following parishes and villages - Terrington St. John, Terrington St. Clement, Upwell, Outwell, Walpole St. Andrew and St. Peter, Tilney St. Lawrence, Clenchwarton, Islington, Emneth, Elm, Marshland St. James and Tilney All Saints.

VENEREAL DISEASE CLINIC

West Norfolk and King's Lynn Hospital.

MALES - Tuesdays and Fridays - 5.30 p.m.

FEMALES AND CHILDREN - Tuesdays and Wednesdays at 3.0. p.m.

DISINFECTION

(i) Disinfection of premises is carried out by the Senior Public Health Inspector's staff.

LABORATORY SERVICE

(a) Public Health Laboratory, Bowthorpe Road, Norwich.
Under the direction of Dr. L.M. Dowsett.

(b) Public Analyst, Eric C. Wood, Ph.D., A.R.C.S., F.R.I.C.,
Clarence House, 6, Clarence Road, Norwich.

REPORT OF THE PUBLIC HEALTH INSPECTOR

Mr. Chairman and Gentlemen,

I beg to submit my report for the year ending 31st December, 1959.

WATER SUPPLY

The survey of the areas of the district without piped water supply carried out in 1958 and which was submitted to the Wisbech & District Water Board resulted in the proposals being submitted to the Minister. Seventeen areas were affected and it was thought that approval by the Minister would be obtained for work to commence in 1960.

The existing large mileage of piped water supplies are controlled and maintained by the Wisbech & District Water Board and the Council's Public Health Department are grateful to the Engineer of the Board and his staff for their help and for the efficiency in the maintenance of a sufficient and pure supply of water for domestic purposes.

SEWAGE DISPOSAL

A warm and dry year did not lessen the work of the Department for cesspool emptying and the demand is still great.

Further complaints were received concerning the condition of dykes in the area where pollution by sewage is inevitable.

It is my duty once again to state that the problem of sewage collection and disposal in the more populated areas becomes worse year by year and will continue to do so. Water carriage sewers and a modern disposal plant are the only answers to this problem.

I give below a comparative table of the work carried out over a period of years:-

<u>Year</u>	<u>Cesspools</u>	<u>Privy Vaults</u>	<u>Sewage Disposal Plants</u> <u>(Council Housing Estates)</u>
952	481	459	51
953	685	394	54
954	739	377	49
955	771	368	45
956	830	233	41
957	955	383	53
958	1305	343	43
959	1338	340	2

RIVER POLLUTION PREVENTION ACTS

The district continued to be covered by the River Boards of the Nene & Ouse, and also by the Internal Drainage Boards. Pollution of these drains by sewage is still heavy and widespread and this is likely to increase as the subsoil water rises.

MOVEABLE DWELLINGS

Four new licences were issued under the Public Health Acts for moveable dwellings. Existing licences were extended for a period of a further twelve months where required.

The moveable dwellings in the district forming temporary accommodation were all inspected and found to be in a clean and tidy state.

FRUIT PICKERS BUNKS AND SEASONAL AGRICULTURAL WORKERS

Once again there was a large influx of seasonal agricultural workers to the district in the early summer. There were four properly maintained camps for Student workers and these were inspected and found to be very satisfactory. Van dwellers were again in abundance and generally speaking, with a few exceptions, these were maintained in a fair condition.

INFESTATION BY PESTS

- | | |
|------------------------|--|
| (a) <u>Bed Bugs</u> | No reports of infestation were received or dealt with. |
| (b) <u>Fleas</u> | 3 cases were reported or found and disinfection was carried out by the Department. |
| (c) <u>Flies</u> | Fly infestation was high during the warm weather, but modern insecticides proved effective. Control of breeding on refuse tips was carried out by the Department and large areas were treated with the modern equipment now available. |
| (d) <u>Cockroaches</u> | No infestations were reported. |

PREVENTION OF DAMAGE BY PESTS ACTS

No rodent operator is employed by the Council. Very few infestations were reported or found during the year. This is probably due to the fact that the district possesses land which has such valuable agricultural farm holdings and it is in the best

interests of the people to prevent infestations. I am confident that every owner of land and property in Marshland uses modern methods to be rid of rats which can cause so much damage to their livelihood.

Rodent control on Refuse Tips was carried out by the Council's employees and once again no heavy infestations were reported or found.

The abandoned Wisbech Canal which runs through the district is an ideal breeding place for rats and the quicker this eyesore can be wiped away by some method the better. I am confident that this could be done by controlled refuse tipping.

PUBLIC CLEANSING

The Refuse Collection Service by direct labour continued to operate fairly satisfactorily. The main difficulties have been at Clenchwarton where the increased number of properties are occupied mainly by people who have lived in towns. These people are of the opinion that a fortnightly kerbside collection is insufficient. Tipping facilities are still a great problem, but the opening of the new tip at War Bank, Clenchwarton helped in this area considerably.

I estimate that 95% of the properties, where refuse is collected have provided a proper standard sanitary bin.

The Upwell and Outwell areas will also cause a problem for tipping space in 1960.

FOOD AND FOOD PREMISES

29 visits were made to food premises during the year for inspection in conjunction with the Food Hygiene Regulations. One food shop was found to be in such a condition to warrant closing and steps were taken at the end of the year for this to be done.

Many improvements were made to food premises throughout the year and a very good general standard was maintained.

41 samples of ice-cream were taken from registered premises and submitted for analysis to the Public Health Laboratory. 38 samples were placed in Grade I and 3 in Grade II. Ice-cream is not manufactured in the district and all the registered premises continued to retail the pre-packed ice-cream by the large companies.

SLAUGHTERHOUSES - MEAT INSPECTION

At 31st December, 1959 there were ten private slaughterhouses licensed in the District and one Knackers Yard at Terrington St. John.

The premises were situated as follows:-

Upwell..... 4 (1 did not slaughter during 1959.)
Outwell..... 1
Walpole St. Peter..... 2
Terrington St. John..... 2
Tilney All Saints..... 1 (Did no slaughter during 1959.)

Regular slaughtering was maintained at six of these slaughterhouses and occasional slaughtering at two. Post mortem inspection was carried out on all animals slaughtered. Having regard to the age of these slaughterhouses they are in good condition under the 1959 standard and a high standard of cleanliness was maintained. Condemned meat was disposed of by burial or sale to a knacker after being stained by your officers.

CONDEMNED MEAT

<u>Beasts</u>	- Carcase Meat	259 lbs.
	Head and Offal	152 lbs.
<u>Pigs</u>	- Carcase Meat	198 lbs.
	Head and Offal	346 lbs.
<u>Sheep</u>	- Carcase Meat	Nil
	Head and Offal	Nil

CONDEMNED FOOD

Cheese 42 lbs.
Tinned Fruit - 10 lbs.
Tinned Meat - 16 lbs.

MILK AND DAIRIES

The following licences were issued during the year:-

<u>Tuberculin Tested</u>	4 Dealer's Licences.
	1 Producer's Licence.
	7 Supplementary Licences.

<u>Pasteurised</u>	4 Dealer's Licences.
	1 Producer's Licence
	7 Supplementary Licences.

<u>Sterilised</u>	6 Dealer's Licences.
-------------------	----------------------

Milk samples were taken by the staff of the County Council.

OFFENSIVE TRADES

There is one licensed Knacker's Yard in the area at Terrington
t. John and conditions were satisfactory.

The following table shows:-

Carcases and Offal inspected and condemned in whole or in part.

	Cattle Excluding Cows	Cows	Calves	Sheep & Lambs	Pigs	Horses
No. Killed (if known)	291	-	-	671	1420	-
No. inspected	291	-	-	671	1420	-
(a)	-	-	-	-	-	-
(b)	28	-	-	-	64	-
(c)	5.29	-	-	-	4.40	-
(d)	-	-	-	-	1	-
(e)	14	-	-	-	43	-
(f)	4.12	-	-	-	1.96	-
(g)	3	-	-	-	-	-
(h)	-	-	-	-	-	-
(i)	-	-	-	-	-	-

Key to Table

- (a) All Diseases except Tuberculosis and Cysticerci - Whole carcasses condemned.
- (b) Carcasses of which some part or organ was condemned.
- (c) Percentage of the number inspected affected with disease other than tuberculosis and cysticerci.
- (d) Tuberculosis only: Whole carcasses condemned.
- (e) Carcasses of which some part or organ was condemned.
- (f) Percentage of the number inspected affected with T.B.
- (g) Cysticercosis - Carcasses of which some part or organ was condemned.
- (h) Carcasses submitted to treatment by refrigeration.
- (i) Generalised and totally condemned.

HOUSING

The attack on the Closing, Demolition and repair of sub-standard properties continued during the year and I thank the Council for their support in accepting my recommendations almost without exception. Many of the scars in the villages having been removed. Development by Private Enterprise went ahead and I give below the number of new dwellings completed.

Bungalows completed by the Council - 14

Houses and Bungalows completed by Private Enterprise - 70

290 Plans were submitted to the department during the year for approval under the Council's Building Byelaws.

ACTION BY THE COUNCIL UNDER THE HOUSING ACTS DURING 1959

Parish	Closing Orders made	Undertakings accepted	Demolition by Formal Action	Demolition by Informal Action.
Clenchwarton	-	-	-	-
Emneth.	2	-	-	-
Marshland St. James.	-	-	-	-
Outwell	1	-	4	-
Terr. St. Clement.	3	-	-	-

West Walton.	-	-	7	-
TOTALS	9	2	11	-

CERTIFICATES OF DISREPAIR

Two applications were received during the year for Certificates of Disrepair, one was issued and in the other case the work required was carried out before the Certificate was issued.

HOUSING REPAIRS - INFORMAL ACTION

It was found necessary to serve five informal notices on owners of properties to do certain essential repairs and all of these notices were complied with. A further 15 properties were also dealt with by negotiation with landlords.

NUISANCES General Complaints - Routine Visits etc.

Summary of Visits - 1959

Building Byelaws.....	1492
Water Supply.....	27
Drainage etc.....	320
Moveable Dwellings.....	41
Factories.....	10
Bakehouses.....	8

Food Premises.....	34
Milk and Dairies.....	9
Infectious Disease.....	12
Miscellaneous.....	170
TOTAL	<u>3342</u>

FACTORIES

Informal action was necessary in two cases reported by H.M. Inspectors. The number of Factories and Bakehouses registered in the District are as follows:-

Parish	No. with Mechanical Power	No. with no Mechanical Power
Clenchwarton	3	-
Emneth	13	2
Marshland St. James	1	1
Outwell	4	-
Terr. St. Clement.	9	-
Terrington St. John	6	1
Tilney St. Lawrence	4	-
Upwell	7	2
Walpole St. Andrew	6	1
Walpole St. Peter	1	3
West Walton	2	-
TOTALS	56	10

Finally may I record my thanks to the Council for their co-operation during the year and to the Clerk and other members of the staff who have assisted the work of the Department in many ways.

I have the honour to be,

Your obedient Servant,

B.V. Braybrook.

Senior Public Health Inspector.
